

"Sound Awakens"

It's been a while since we both
Drew a line in the dirt, it's all gone
Seen that smile she's taken
A leap of faith is gonna break me

See the sound awaken
Hear those words obey nothing (oh oh)
This is not a rule, it's a margin
Fill you up and let's depart here

Screaming that you lost your way
The sound only reverberates
Screaming that you lost your way
The sound only reverberates

A leap of faith is gonna break me

Screaming that you lost your way

Screaming that you lost your way
